To Be Pulled Off.

At a meeting of business men of Corpus Christi Friday it was resolved to patronize the steamship Cumberland in preference to the Aransas Pass Railway. E. J. Martin, general passenger agent, immediately notified them that the Aransas Pass would pull off the regular Corpus train and put on a mixed train instead. Poor old Corpus.

THE BUCHEL DAM.

The Buchel dam at Cuero was injured by the heavy rains last week to the extent of \$1000. The river rose about ten feet and many big fish were caught in the penstocks of the dam. Some of them weighed ten pounds. A salt-water mullet was also caught, something rare for the Guadalupe river. The work will be delayed two weeks. There are forty men at work on the dam and it will be completed in January. It will cost \$150,000. It will be the sole property of Otto Buchel. It will be used for irrigating purposes and for furnishing power for electric lights, gins, mills, etc.

One of the greatest nuisances on excursion trains is the young man or boy who can't keep still. They will start at one end of the train and walk through to the front end crowding through the aisles and stepping on every body's toes. When they get to the front of the train they turn around and go back and repeat the performance all day long. It has been estimated that one of these fellows will tramp fifty or sixty miles in the course of a day on an excursion train.
